About Ecorys

At Ecorys we aim to deliver real benefit to society through the work we do. We offer research, consultancy and project management, specialising in economic, social and spatial development. Focusing on complex market, policy and management issues we provide our clients in the public, private and not-for-profit sectors worldwide with a unique perspective and high-value solutions. Ecorys' remarkable history spans more than 80 years. Our expertise covers economy and competitiveness; regions, cities and real estate; energy and water; transport and mobility; social policy, education, health and governance. We value our independence, integrity and partnerships. Our staff are dedicated experts from academia and consultancy, who share best practices both within our company and with our partners internationally.

Ecorys Netherlands has an active CSR policy and is ISO14001 certified (the international standard for environmental management systems). Our sustainability goals translate into our company policy and practical measures for people, planet and profit, such as using a 100% green electricity tariff, purchasing carbon offsets for all our flights, incentivising staff to use public transport and printing on FSC or PEFC certified paper. Our actions have reduced our carbon footprint by an estimated 80% since 2007.

28. Do you think the EU Delegations should be more involved in the MBP?

(Each respondent could choose only **ONE** response per sub-question.)

Sub-questions	Resp.	% of responses
in the design phase	5	
in the implementation phase	5	
Average: 1,30 — Median: 1		
	1. yes	
	2. no	

Explanation:

- Yes, in the design - In order to ensure consistency with national programmes;
- Yes, in the design - the nature of MB IPA programmes imposes more significant role of EC in coordination of programmes preparation through cooperation with NIPAC TC from the region. EU Delegation should be involved in communication related to MB IPA Programmes preparation. It is important to provide EUD with the opportunity to have insight in the interventions that are identified for financial support. This is implied by need for complementarity between national programmes (which preparation is marked by greater involvement of EUD) and multibeneficiary programmes;
- Yes, in the implementation - the need for greater involvement of EUD in the implementation phase of project cycle management arises comes from the potential problems in the implementation activities, where EUD can intervene in cooperation with NIPAC TC.

Response	Total	% of responses	%
yes (please explain)	4		80 %
no (please explain)	1		20 %
Total respondents: 5			
Skipped question: 13			

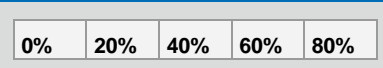

Explanation:

- yes Although wide range of important areas are currently covered with MBP, there should be some space left for the projects initiated in the region;
- yes MB IPA, as regional aspect of IPA is very useful instrument to support needs and priorities with regional dimension. In some priority areas the regional approach is more adequate and effective and results with economy of scale;
- no MB IPA should reduce its scope. There is no need for MB IPA projects to be implemented in all sectors. Assistance should be provided only in those sectors where impact of regional approach is obvious;
- yes MBP projects are very useful;
- yes Regional projects should target shared needs.
